

Haaker Equipment Company and Total Clean its industrial sweeper/scrubber affiliate celebrated their 35 year in the equipment service and sales market on October 17. Over 300 guests enjoyed a buffet luau luncheon and festivities as well as equipment displays vendor displays and an incredible street rod show.

Municipal and contractor customers from San Diego to Fresno attended the event at the facility in La Verne, California. The customers were able to see sewer nozzle displays and operations, demonstrations of sweepers and scrubbers and the massive display of parts and service available for the sweeper and sewer cleaning contractor. The day culminated in a lively hula competition and raffle.

Haaker Equipment Company's products are primarily used in a public works environment, either by municipalities doing their own maintenance and repair work, or by contractors providing those services to government bodies. Ever growing environmental awareness and regulation have increased the importance of street sweeping and wastewater and storm drain maintenance. Our products are now considered instrumental in preventing pollution caused by storm water run-off, wastewater spills and airborne dust from construction projects or normal roadway traffic.

Haaker Equipment Company's objective is to provide its customers with quality products and total support services. Because of this unyielding tradition, we have become the leader in supplying equipment, parts and customer satisfaction to the municipal, industrial and contractor sectors. Our consistent ranking as top producer assures our customers of long term stability and support today and in the years to come. Our customers rely on HEC's commitment to represent the best and most reliable manufacturers of equipment and parts in the industry. This, together with our dedication to service-after-the-sale, allows us to deliver the performance and value demanded by our customers. Excellence is our objective. There is no alternative too much is riding on it.

Haaker Equipment Company has represented Vactor Manufacturing since 1972. Elgin Sweeper since 1981 and Advance since 2002. All are the leading supplier of cleaning products and cleaning trucks in the world.
